

CCF in collaboration with Pearson India Education Services is happy to announce a MCMF certification program exclusively for CCF members.

As you are aware Career Guidance is emerging as a very important area where counselors can help students make right career choices. Last year CCF conducted an introductory session on MCMF for members. The introduction itself has helped counselors use it as an effective tool for helping students and clients.

Now Pearson India Education Services, who have bought the rights for MCMF, insist on certification for using the tool as mandatory. This is to ensure the tool is used professionally and appropriately. They have offered to conduct a MCMF Certification program which will enable CCF members to get trained in using and interpreting MCMF results for your clients. This is at a nominal investment of **Rs.1,500/-** for training in certification.

Details about the MCMF certification program are as follows:

The MCMF Certification Program is a 'ONE TIME' certificate. Members who want to know more details about the tool can access the MCMF website. For your quick reference following is the link to their website: <https://www.mychoicemyfuture.com/>. Kindly go through.

This program is open for RPC and JPC Categories. Registration is confirmed only on payment.

The **objectives** of May 20, 2017 program are as follows:

1. Know about the tool MCMF
2. Learn to interpret the report
3. Based on the report, counsel the client.

The cost of the tool is Rs.1,000/-. CCF is in the process of deciding the rate for CCF counselors, which will be lower than the market rate. The specific information will be given shortly.
