Healing Inner Conflicts

Goal of the workshop is to help the practitioners take home a clear understanding of HIC principles that explain the basics of internal and external conflicts..

The workshop will guide the participants to process those conflicts sensitively and effectively using HIC principles. It is a simple method for understanding the four mechanisms that underpin the majority of disturbances we experience as human beings.

Facilitator

David 'Bhakti' Gotlieb brings a lifetime of experience to his counselling, supervision and professional development workshops. He has a Masters of Applied Science in Critical Psychology, a Graduate Diploma

in Social Ecology (UWS) ACA College of Supervision.

He has been seeing private clients for over 30 years and through his work with extreme states of dissociation has developed 'Healing Inner Conflict' (HIC) which is a simple method for understanding and intervening effectively with the mechanisms that manifest as disturbing behaviours.
